COMMUNITY CHOICE AGGREGATION ("CCA") BILLING OVERVIEW

CCA Overview: Village of Pelham ("VOP") enters into an agreement effective May, 2016 with Sustainable Westchester and 19 other communities. The entire VOP aggregates its power supply purchasing under one contract with an energy service company ("ESCO").

The CCA is only for **SUPPLY** (the power itself). Con-Ed still charges separately for **DELIVERY** (the wires and poles). Both charges have always been presented on one-bill, even before CCA.

Under the CCA all residents get 100% of their power from renewable sources and the rate is fixed at 7.76 cents per kWh, which is lower than the previous 12-month average residential rate from Con-Ed.

In June 2016, Residents of northern portion of Pelham notice they are not receiving the CCA rate. I contacted Sustainable Westchester (now Westchester Power), Con-Ed and the Public Service Commission to remedy the breach of contract.

PSC agrees to allow Con-Ed to cancel and re-bill instead of issuing a credit, over my objection.

Cancelled and corrected bills were sent by Con-Ed to correct Con-Ed's internal billing error.

Though not clear from the Con-Ed rebills, the credits are to cover the difference between the amount of money charged for the power supply at the Con-Ed standard residential rate (which fluctuates) and the CCA negotiated rate (which was fixed at 7.76 cents per kWh).

For all questions about Con-Ed billing, please contact:
