AGENDA ITEMS

WS1 - Discussion: GHG Emission Targets

- The Climate Action Planning Institute – the CAPI project, the Village of Pelham is working along with 8 other municipalities in Westchester County to inventory our greenhouse gas emissions for the purpose of creating a plan to reduce them. The International Panel on Climate Change recommends finding a path of reduction by 50% by 2030, with an ultimate goal of 0% by 2050. The Village of Pelham is almost at the achievable 50% reduction; the data collected about the Village was reviewed with the anticipated reduction targets noted over the next few years.

WS2 - Review: Regular Meeting Agenda Items

A motion was made by Village Trustee Solomon, seconded by Village Trustee Eldahry and voted unanimously by all to adjourn to executive session at 7:33PM to discuss a personnel matter in the Fire Department and the Police Department.
